INTRODUCTIONS

"**CRAFT AND LORE**" is a web-based platform designed to promote and sell handcrafted and traditional art pieces. It is built to empower local artisans, helping them reach a wider audience while preserving cultural heritage through e-commerce. The platform blends the charm of age-old crafts with the ease of modern technology .

CRAFT AND LORE is a responsive online craft shopping website developed using React.js for the frontend. The platform offers a user-friendly interface for exploring and purchasing various crafts, including flower craft, glass craft, leather craft, paper craft, and clay craft. The Craft Management System facilitates seamless operations for both users and administrators, ensuring efficient management and sale of crafts.

CRAFT AND LORE highlights proficiency in frontend development using React, demonstrating skills in component-based architecture, state management, and responsive design to deliver an efficient and visually appealing e-commerce platform.

Craft management involves the organized planning, execution and marketing of handmade projects across various materials such as paper, glass, leather, flower and clay. Each craft type requires specific techniques, tools and materials along with proper quality control and workflow management to ensure efficiency and creativity.

OBJECTIVES

- Empower Local Artisans : Provide them with a digital marketplace.-
- Promote Traditional Crafts: Preserve cultural art forms through online visibility.
- Connect Buyers & Makers: Create a platform where customers can directly purchase unique handmade products.
- Encourage Eco-Friendly Choices: Support sustainable, hand-crafted alternatives over mass-produced goods.

TECHNOLOGIES USED

Frontend Development:

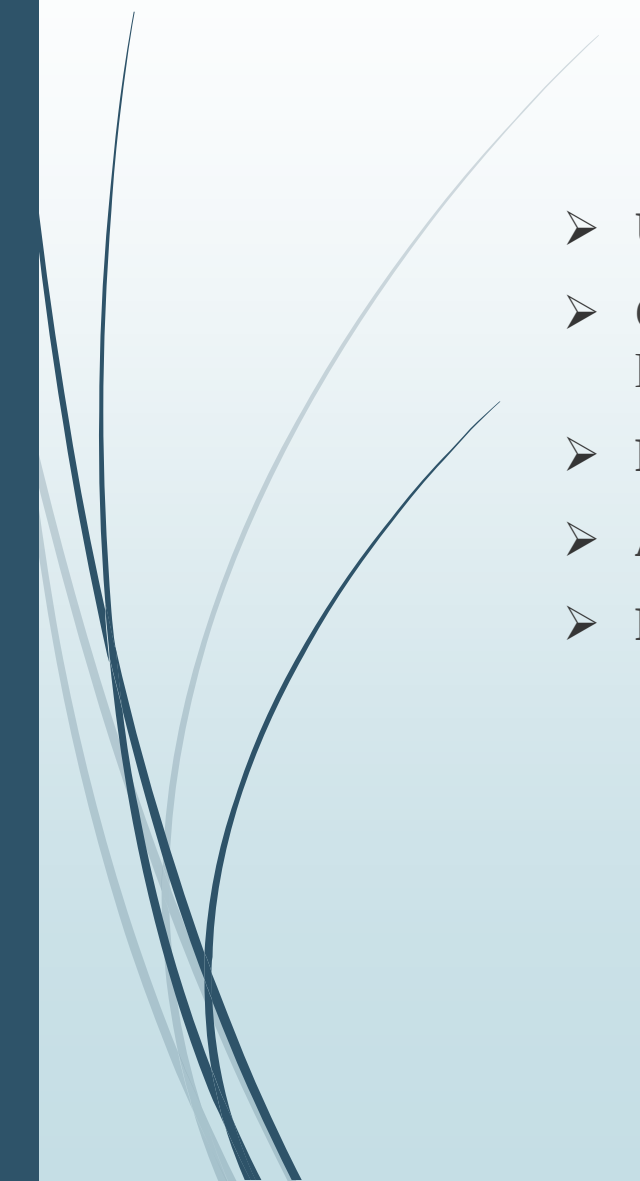

- HTML5, CSS3, JavaScript
- React.js for interactive UI components
- Bootstrap for responsive design

Tools & Platforms:

- Visual Studio Code
- GitHub for version control
- Figma for design graphics

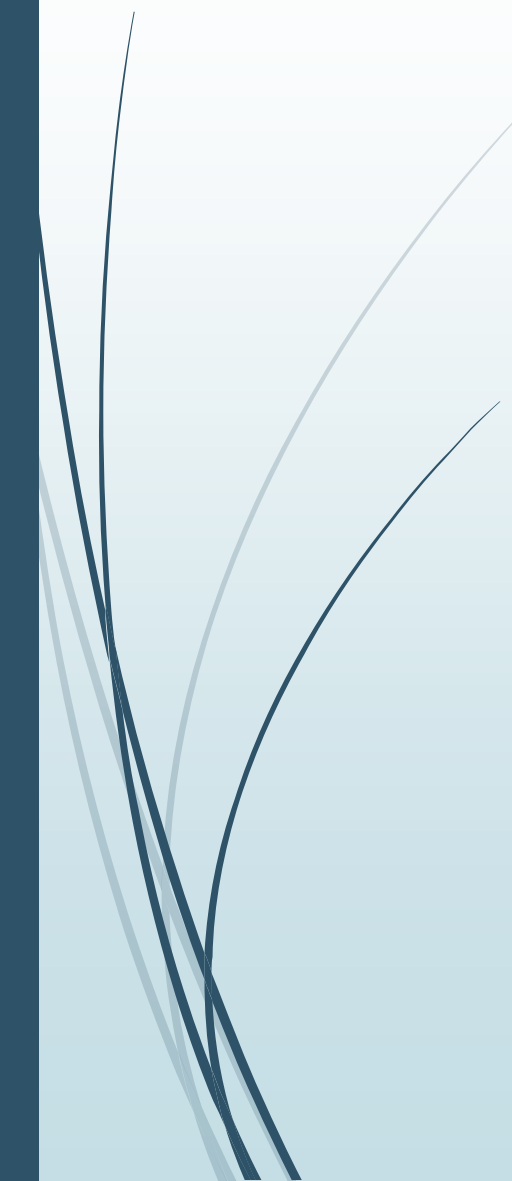

KEY FEATURES

- **User-Friendly Interface:** Clean and attractive UI for easy navigation.
- **Category-Based Browsing:** Products sorted into categories like paper, flower, glass, leather, and clay crafts.
- **Product Cards:** Display product images, prices, and descriptions with hover effects.
- **Admin Dashboard:** Admin can manage products, view orders, and handle customer data.
- **Responsive Design:** Works smoothly on both desktop and mobile devices.

MODULES OVERVIEW

1. User Module

- Register/Login
- Browse categories and view products
- Add items to cart

2. Admin Module

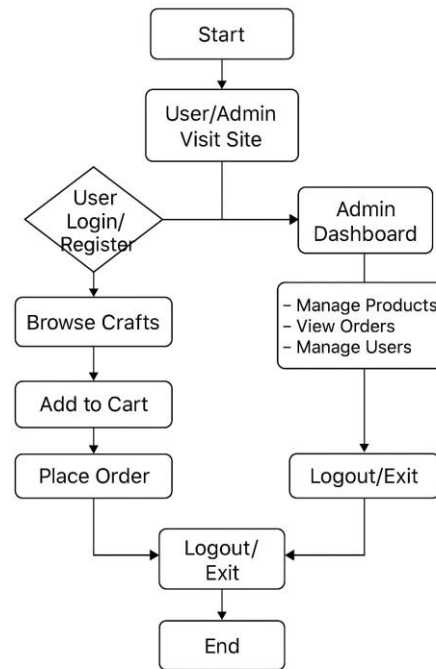

- Login - Add, edit, or remove products
- Manage product categories

3. Product Module

- Each product displayed with image, price, description
- Filterable by category
- View details and interact with product cards

SCREENSHOTS/DEMO

MAIN DASHBOARD – OVERVIEW

- **Home Page:** A welcoming entry point with a banner showcasing different craft categories and quick links to explore collections.
- **About Us:** Provides insights into "CRAFT AND LORE" including its mission, quality commitment, and customer satisfaction values.
- **Paper Craft Collection:** Displays various paper-based craft items with descriptions, pricing, and filter options.
- **Glass Craft Collection:** Showcases artistic glass craft pieces with details about materials, pricing, and designs.
- **Leather Craft Collection:** Features handmade leather items such as wallets, bags, and decorative crafts.
- **Flower Craft Collection:** Includes floral decorations, artificial flower arrangements, and eco-friendly craft designs.
- **Clay Craft Collection:** Highlights beautiful clay models, pottery, and decorative clay artworks.
- **Feedback Form:** Allows users to share their experience, rate crafts, and provide suggestions.
- **Login & Register:** Enables users to create accounts, track orders, and get a personalized shopping experience.

About Us

Craft and Lore was founded with a passion for preserving traditional craftsmanship and cultural lore. We believe that the stories woven into every craft are just as important as the techniques themselves. Our journey began in a small workshop, where skilled artisans dedicated themselves to mastering age-old techniques passed down through generations. Craft and Lore is an independent design and build workshop in North Idaho focusing on leather goods that are simple in form and function. Timeless methods and old world traditions are employed to craft products that are heritage in quality and heirloom by durability.

REGISTRATION AND LOGIN

The image shows a web browser displaying the 'Handmade Craft' website. A 'Signup' modal is open in the center. The website has a dark blue header with a logo on the left and navigation links 'Home', 'About Us', 'Login', and 'Signup' on the right. A green banner below the header reads 'Special Offer: Get 20% off on all orders'. The main content area features a large image of hands working on a craft project, with the text 'Handmade Craft' and 'Insert the sub title of your presentation' below it. The 'Signup' modal is a white box with a close button (X) in the top right corner. It contains the following fields: 'Username:' (text input), 'Email:' (text input), 'Password:' (password input), 'Confirm Password:' (password input), 'Gender:' (dropdown menu with 'Select Gender' selected), 'Date of Birth:' (date input with 'dd-mm-yyyy' placeholder and a calendar icon), and 'Phone Number (with +91 prefix):' (text input with '+911234567890' placeholder). Below these fields is a checkbox for 'I agree to the terms and conditions' and a blue 'Signup' button. At the bottom of the modal, it says 'Already have an account? [Login](#)'.

EDIT THE PRODUCT

The image shows a modal window titled "Edit Product" with a close button (X) in the top right corner. The form contains three input fields: "Product Name" with the value "Pendant", "Price" with the value "100", and "Quantity" with the value "10". At the bottom right of the modal are two buttons: "Cancel" and "Save". The modal is overlaid on a background that includes a table with three rows of product data.

Pendant	100	10	
Night Lamp	200	20	
Bowl	300	30	

DELETE

The screenshot shows a web application interface with a dark blue header and a light blue navigation bar. A confirmation dialog box is displayed in the center, indicating that a product has been deleted successfully. Below the dialog, a table lists three products: Pendant, Night Lamp, and Bowl. Each product row includes edit and delete icons. The background of the page features a rustic image of a wooden surface with various items like a bowl, a string, and a small plant.

CHALLENGES FACED

- 
- Making the website fully responsive across devices.
 - Implementing smooth category filtering using React.
 - Designing an intuitive admin dashboard.
 - Ensuring real-time validation and clean UI/UX.

FUTURE ENHANCEMENTS

- Integrate **Payment Gateway** for online transactions.
- Add **User Ratings and Reviews** for products.
- Implement **Order Tracking System**.
- Allow **Artisans to Register and Upload Products** directly.
- Create a **Mobile App version** of the site.
- **Wishlist Feature** Allowing users to save favorite items for future purchases, improving user engagement and conversion rates.
- These enhancements will significantly enrich the user experience, increase engagement, and make **CRAFT AND LORE** a more robust, competitive, and scalable solution in the e-commerce domain.

CONCLUSION

"Craft and Lore" serves as a bridge between traditional artisans and the modern market. It not only supports the livelihood of skilled craftsmen but also revives cultural richness by making these crafts accessible online. This project helped me enhance my web development skills, especially in React.js, and gain experience in designing practical solutions.

Moreover, this project demonstrates proficiency in frontend development, component-based architecture, and real-time application handling—highlighting technical skills and a deep understanding of project lifecycle implementation.

CRAFT AND LORE not only simplifies the online craft shopping process but also promotes the value of traditional handmade art through a modern digital platform.
